## Dramatic Representation of ‘Kuyili The First Human Bomb’ made the 70th Republic Day alive at TGWS

TGWS had a great 70th Republic Day celebration today at campus brought alive by amazing performances put up by teachers. The Republic Day celebration at campus commenced with Flag Hoisting by the Managing Director Mr.Vinod Gandhi who wished the faculty and students a great Republic Day. The dramatic picturing of ‘Kuyili’ the first human bomb and her boundless love towards the queen-Velunachiayyar and limitless admiration towards the country were beautifully pictured in the drama.

The musical performance and the dances were stunning too. The students were given an orientation on the 6 Fundamental Rights of India by the Head of School in the interactive session. Another great celebration at

## COLOUR OF THE MONTH - WHITE

White is considered to be the color of perfection. It means safety, purity and cleanliness. The little ones were dressed up in white. Kids made Stars, Swan, Moon, Clouds and rabbit using decorative materials like crayons shaving, bits of paper, glitters and cotton.

- K1 Kiwi - Rabbit(Tissue paper).
- K2 Kiwi - Swan(cotton).
- K2 Litchi - Moon(bits of paper).
- K3 Kiwi - Clouds(Cotton).
- K3 Litchi - Stars(glitters)

Decorating the rabbit using tissue paper

Swan looks so beautiful

Here is our shiny glittery moon

# EVENT REPORT

A white cloud!!!

We made it using cotton.

Our stars are decorating the star with glitters

Ours kids are happy to make a glitter star

White world is glittering

# EVENT REPORT

## INDOOR ACTIVITY

### CLAY MOLDING – K1 & K2

Clay molding helps to develop visualization and interpretative skills. It also allows children avenue for self – expression. It helps to develop hand-eye coordination and fine motor skills. Clay gives them the opportunity to be creative and learn more about texture, shape and form. Children made car, small balls , tiny flowers and dolphins.

We are busy with the clay

We learned to make many animals

Let me do a smiley using clay

Lets go for a drive in a car

Enjoyed making different transports with clay

We both are making hissy snake

# EVENT REPORT

## K3- MAKING POP CORN

It was thrilling to look at and feel the popcorn kernels before they were popped. Then, we popped the kernels in air at our classroom. We gave each child a cup of the newly popped popcorn and asked them to evaluate using their five senses. They have seen a yellow small circle popping white puffy like a cloud with the help of eyes, smell and taste is delicious and salty. Also heard a pop! pop! pop! Crunch and kids felt the smooth, hard and soft texture. Hence, five senses were used.

Its popping and I can hear the sound.

Yummy popcorn is ready....

Feeling the heat.....

This is our tasty popcorn

I can feel the heat

Our kids are ready to eat the pop corn

## MAKING FARM CORNER

# EVENT REPORT

Kids started making the farm by spreading mud in a corner , building the fence with ice-cream sticks , filled the mud by grass and animal puppets on it.

Happy to make our class farm corner....

K3 Litchi's farm corner.

Giving colours for animal

Farm animals are very safe in our farm

Its ready , all can visit our k3 kiwi farm corner.

## TALENT HUNT SHOW

# EVENT REPORT

A talent hunt show is an event where students can explore their individual talents. In the month of November, we had talent hunt show as follows:

### K1 – AMAZING HANDICRAFT

Handicraft is a type of craft where students make things using only their hands and basic tools. It develops fine motor skills and improves hand-eye coordination.

It's time to show our creativity

Guess which is the best?

### K2 – TWIST & TURN

Kids love music and are normally found dancing about whenever they hear it playing. There's no doubt that dancing is a highly useful physical activity, which has many benefits. It improves our child's range of movement and physical strength and stamina. It also increases flexibility.

We love dancing for a music with rhythm.

# EVENT REPORT

Lets twist and turn our body with rhythmic sense

## K3 – II LANGUAGE RECITAL

There is a growing appreciation of the value of speaking more than one language. As they practice memorizing the poetry to recite, it links memory with audio and visual events, helping them develop memorization skills. Singing and poetry recitation are skills encompassing the development of speech, expression of feelings, as well as stage confidence. K3 kids recited rhymes in Hindi ,Tamil and French with amazing actions.

Happy to listen our kids to singing rhymes

Feeling proud to recite in my second language

## OUTDOOR ACTIVITY

# EVENT REPORT

### FLYING COLOURFUL BALLOONS – K1

K1 had a concept on colors. So , flying colorful balloons was conducted as an outdoor activity. As playing with colourful balloons ,toddlers comes to learn about the color names easily. A balloon moves more slowly than a ball and can be easier to grasp and would learn to control their movements i.e being more gentle so that the balloon dosen't pop! These hand-eye coordination games develop early ball skills ready for social ball games in later years.

Our happiness in playing with balloons

We played throw and catch with colourful balloons

# EVENT REPORT

## VISIT TO FARM

A trip to rural areas and seeing a real live farm with animals is rare these days. A time children spent on farm is very important. Farming is educational and teaching our children where exactly their food comes from? On a farm visit, children encounter the natural world, appreciating the compromise between human needs, animal welfare and wildlife. It's been a great fun by touching the animals and feeling happy to be with them.

We reached the farm corner and we are going to enjoy.

It is very soft to touch

Happy to see the farm animals

We are trying to walk like a duck

# EVENT REPORT

## ASSEMBLY

### CERTIFICATE DISTRIBUTION

Happy to receive a certificate

Happy to hold the big certificate

Proud to receive the certificate from Merline ma'am

Happy to receive the certificates

Thank you for the certificates ma'am

## STUDENT CORNER

# EVENT REPORT

**Aadhav Ramesh,  
K1 Kiwi - TGWS.**

**Vishnu Karthik.S.N,  
K1 Kiwi - TGWS.**

A dairy cow can produce up to 7 gallons of milk a day. That's 100 glasses of milk, enough for 30 people to get the daily servings they need.

**Interesting fact**

## PARENT TALK

I feel from my heart and mind that Geekay world school is the best place for my son's mental as well as physical growth. He is showing enormous improvement towards his curriculum and motor skills. My son is receiving excellent education and actually being TAUGHT! What a sports environment you are providing?? Amazing .. As a working mother I really felt happy and comfortable for having my son in your esteemed school. Geekay also provides very good platform for leadership qualities. I love the talent hunt show which brings out the kids talent and also eliminate fear in budding stage itself that is a real great effort. The teachers took lot of interest toward my son's upliftment. All the teachers have the ability to tune in very quickly with each child to work out their strength and set targets to achieve the best. As I usually tell the Co-ordinator that I even fail to play the role of a mother but as Guru's you are performing beyond the expectations!! Love you GEEKAY... Couldn't ask for better performance... There may be number of International schools but I feel THE GEEKAY WORLD SCHOOL pays justice to it.

**LETS PUT GEEKAY FIRST!!!!(ALWAYS)**

## TEACHER WRITE

A good teacher can inspire, hope, ignite the imagination and instill a love of learning. It's been 5 years since I started working in kindergarten. I still feel that I am fresh as I am learning new things everyday from children.

I am happy that I am playing a vital role in shaping up the young minds though I am a II language teacher I make sure that the children are speaking clearly with good body language.

I follow the best way of making each and every individual child , understand clearly in order to provide them the easiest and the most joyful learning.

**Ms. Aruljothi,  
Pre-Primary Facilitator-TGWS.**
